

Why Your First Scuba Diving Mask Shouldn't Be a £15 Bargain

Wight Dive School – Isle of Wight Scuba Diving Experts

When you join **Wight Dive School**, we provide all the equipment you need to get started with your scuba diving course. But after just a few sessions, almost every new diver asks the same question:

👉 *“What’s the first piece of diving equipment I should buy?”*

Ask any instructor and the answer is simple:

Buy your own scuba diving mask and snorkel first.

A well-fitting mask is essential—it directly affects your **comfort, confidence, and safety underwater**. It also means you have a great mask to take on holiday for those snorkelling days when you’re not doing a full dive.

That’s why, here at **Wight Dive School on the Isle of Wight**, we’ve partnered with Poole Diving Centre to offer a carefully selected range of high-quality scuba masks.

Why Cheap Dive Masks Don't Work

It’s tempting to pick up a £10–£15 mask online. But in reality, these often lead to:

- Constant leaking
 - Frequent mask clearing
 - Fogging at the worst moments
 - Discomfort after a short time underwater - so instead of enjoying your dive, you end up battling your equipment.
-

Why a Quality Scuba Mask Makes All the Difference. A properly fitted scuba diving mask offers:

- ✓ **A perfect seal** – soft silicone that fits your face
- ✓ **Crystal clear vision** – tempered glass lenses
- ✓ **All-day comfort** – no pressure points
- ✓ **Reliability underwater** – built to perform at depth

When your mask fits properly, you stop thinking about it—and that’s exactly what you want.

Confidence for New Divers

At **Wight Dive School**, we regularly see how much difference a good mask makes.

For beginners especially:

- A leaking mask increases stress
- A good mask builds confidence
- Confidence leads to better diving

It's a simple upgrade that transforms your entire experience.

“But I Can Get One Cheaper Online...”

Now, you might be thinking — *“Can't I just get one cheaper online?”*
And yes, you probably can.

But before you do, it's worth considering a few key advantages of buying from us:

First, you can try the mask on properly and make sure it fits your face perfectly — something that's absolutely essential for diving.

Second, all of our masks come with a proper protective box. This might sound like a small thing, but when you're travelling to dive sites around the UK or abroad, it makes a big difference in keeping your mask safe and scratch-free.

And finally, you're supporting a local Isle of Wight business — helping us continue to offer training, experiences, and opportunities for divers right here on the Island.

Recommended Scuba Masks

Here are some of the most popular masks we sell at **Wight Dive School**:

Mares Ray Mask – Yellow/White or Blue/White

£26.00

A lightweight, comfortable option with a soft silicone skirt—great for beginners and casual divers.

SEAC Extreme 50 Years Mask – Light Blue

£28.50

A stylish limited-edition mask combining comfort, heritage design, and reliable performance.

Mission 2 Lens Mask – White Arctic

£49.95

A sleek, modern mask offering excellent visibility and a comfortable fit—perfect for divers wanting clarity and style.

Scubapro Zoom Mask – Clear Silicone (Blue or Yellow)

£69.00

A versatile, low-volume mask—ideal for travel and all diving conditions.

TUSA M212 Freedom Ceos – Cobalt Blue

£79.96

A premium mask known for its outstanding comfort and seal, using advanced Freedom Technology for a superior fit.

**Matching snorkels and
slap straps also available
for each mask**

The Bottom Line

- 👉 Buy cheap, and you'll notice it on every dive
- 👉 Buy well, and you won't notice your mask at all

And that's exactly the point.
